

Ini Produk **INDONESIA**

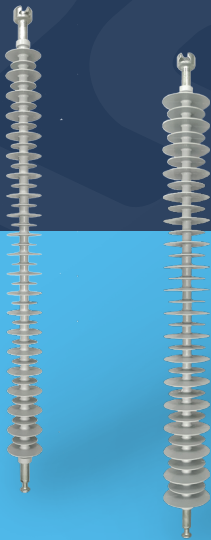

### INSULATOR 500 kV

Composite Insulators to prevent leaks and sudden electrical current surges in 500 kV Extra High Voltage Overhead Lines.

### INSULATOR 275 kV

Composite Insulators to prevent leaks and sudden electrical current surges in 275 kV Extra High Voltage Overhead Lines.

### INSULATOR 150 kV

Composite Insulators to prevent leaks and sudden electrical current surges in 150 kV High Voltage Overhead Lines.

### INSULATOR 66 kV

Composite Insulators to prevent leaks and sudden electrical current surges in 66 kV High Voltage Overhead Lines.

### INSULATOR 20 kV

Composite Insulators to prevent leaks and sudden electrical current surges in 20 kV Medium Voltage Overhead Lines.

## FUSE CUT OUT 24 kV

Combination of fuse and switch, used in primary overhead feeder lines and taps to protect distribution transformers from current surges and overloads.

## DISCONNECTING SWITCH 24 kV

Type of switching device with visible contacts, used to ensure that an electrical circuit is completely de-energized for service or maintenance.

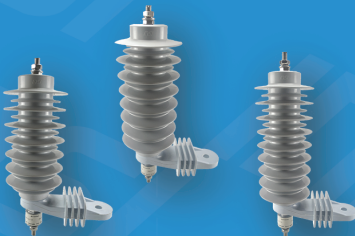

## BUSHING CONNECTION PROTECTION COVER

- \*Covering and insulating bushing in transformer.
- \*Cover to prevent animal-caused blackouts.
- \*Molded from silicone rubber processed by high temperature vulcanizing.
- \*Resistant to extreme weather.

## ARRESTER

Protects an electric power system against lightning, limits overvoltage that comes and flows to the ground in 20 kV medium voltage distribution system.
